EDUCATION

Lakireddy BaliReddy College of Engineering

BTech CSE : 9.5CGPA

2024 – 2025

Sri Saraswathi Junior College

Intermediate MPC : 96.4%

2022 – 2024

ST. Mark's English Medium High School

SSC : 95.5%

2010 – 2022

EXPERIENCE

- **Smart India Hackathon (College Level)** – E-Tongue for Dravya Identification *Participant* / 2025
 - Proposed E-Tongue based liquid identification solution.
 - Presented problem statement, solution approach, and applications to jury panel.
- **Technical PPT Presentation** – The Guardian Keychain- Alcohol Detection System
 - Prepared and delivered PPT on MQ-3 based portable alcohol detection system.
 - Explained circuit design, working, and safety applications.
- **Poster Presentation** – E-Tongue for Dravya Identification
 - Researched electronic tongue sensors and prepared technical poster.
 - Presented working principle and applications to judges
- **Technical PPT Presentation** – Vehicle Pollution Monitoring System
 - Presented air-sampling based pollution monitoring concept using gas sensors.

PROJECTS

- **YouTube Replica Website** **HTML, CSS**
Designed responsive homepage with grid layout and navigation.
Implemented modern UI styling and responsive design.
- **Address Book System** **Python, PyQt**
Developed GUI with add/edit/delete/search features.
Practiced GUI design, event handling, and data management. [Link](#)
- **Guardian Keychain Alcohol Detection Sensor** **Conceptual**
Designed working principle and alert system for portable alcohol detection.
Prepared block diagram, working logic, and alert mechanism for real-world application.
- **Flashcard Study App** **HTML, CSS, JavaScript** [Link](#)
Developed an interactive flashcard web application to help users learn vocabulary, antonyms, and languages with features to create, view, edit, and flip flashcards for effective studying.

ACHIEVEMENTS

- **3rd Prize – Techno Vision 2k25 Event**: Recognized for innovative research on sensor-based liquid identification
- **Selected Candidate– Smart India Hackathon (College Level)**: Developed a technical solution for advanced sensor-based liquid detection
- **Ideathon Recognition – Lakshya 2K26**: Proposed a creative portable safety monitoring device for alcohol detection.
- Successfully implemented a responsive web interface and GUI-based application to demonstrate practical coding skills.
- Demonstrated strong problem-solving, research, and conceptualization skills in environmental and safety-focused projects

CERTIFICATIONS

- **Programming in C** — Cisco Networking Academy
- **Python Programming** — Infosys Springboard

- **The Joy of Computing Using Python** — NPTEL
- **Poster Presentation - E-Tongue for Dravya Identification** — Technical Symposium

TECHNICAL SKILLS

Languages	: C, Python, Java
Frontend	: HTML, CSS, JavaScript (Basics)
Backend	: Java (OOP Basics), Python (Basics)
Operating Systems	: Windows

SUMMARY

Passionate and **self-motivated learner** who treats coding as creativity, with a strong interest in developing impactful real-world technology solutions.
